

Health and Safety Policy

Carey Group consists of Carey Mining and Carey Assets. The scope of services provided encompasses the provision and development of mining, civil and infrastructure services, training, labour and equipment hire to the government, mining, energy and civil sectors.

The Carey Group of Companies values our people. Our core beliefs are that no business activity will come before health and safety needs and that the responsibility for health and safety rests with every individual.

Our Commitments are to:

- Protect the health and safety of our employees, contractors and visitors
- Promote a proactive and supportive health and safety culture
- Demonstrate health and safety leadership and commitment of managers and supervisors
- As a minimum comply with the relevant health and safety legislation and other obligations/ agreed requirements
- Provide and maintain a Safe System of Work, including People, Methods, Equipment, Environment and Management of Change
- Develop health and safety awareness by initial and ongoing education and training of all staff, contractors and visitors
- Take all practicable steps to manage hazards through risk identification, assessment, control and monitoring
- Develop safe work procedures and work instructions in conjunction with the workforce that control identified risk and provide resources, facilities, equipment and training to support this
- Set health and safety objectives and targets to support this policy, and regularly review progress
- Audit and continuously improve our health and safety management system
- Involve people in health and safety management through consultation
- Ensure all health and safety events at our sites are reported
- Where injury or illness occurs to our people, help achieve full recovery through response, treatment and active rehabilitation
- Make the policy available to the public
